

City of Rohnert Park Water Efficiency Rebate Program

Rebates available on a first come, first served basis through December 31, 2016 while funding lasts.

High-Efficiency Clothes Washer Rebate

Get up to \$75.00* back on the purchase and installation of a new, qualifying high-efficiency clothes washer (HEW). A new washer can use 40 to 60% less water and energy than older, top loading clothes washers. High capacity HEWs use 18 to 25 gallons of water per load compared to 50 or more gallons for top loading models.

Use less water, less energy, and less detergent while cleaning your clothes better and will less wear and tear. New HEWs also remove more water from the laundry during the spin cycle, so loads spend less time in the dryer. The savings all add up to a great deal that can pay for itself in a few years.

For a listing of qualifying clothes washers, visit the City of Rohnert Park's website: www.rpcity.org or call the Utility Department at (707) 585-6750. Rebates are available for all "Tier 3" listed clothes washers except those containing silver ion technology.

High-Efficiency Toilet Rebate

Get up to \$150.00* back on the purchase and installation of each new, qualifying high-efficiency toilet (HET) from the *List of Qualifying Models*.

An HET uses, on average, 1.28 gallons per flush (gpf) or less – a minimum of 20% less than the standard 1.6 gpf toilets. Replacing your older toilet saves water and reduces wastewater without sacrificing performance.

HETs are available in different flush types: single-flush gravity fed (like a conventional toilet), single-flush pressure assist, and dual-flush in both gravity fed and pressure assist. **Single-flush gravity fed toilets** use 1.28 gpf or less. The power of gravity does the work just like the original, only with less water. **Dual-flush toilets** save water by providing two different flush volumes. For solids, a full flush of 1.6 gallons or less and a reduced flush of 1.1 gallons or less. The full and reduced flushes average out to 1.28 gpf or less. Dual-flush toilets can be gravity fed or pressure assisted. **Pressure-assist toilets** have a sealed vessel inside the tank that compresses a pocket of air inside as the water fills. When the toilet is flushed, the pressurized air forces the water rapidly into the bowl, creating a powerful, fast flush that has a "whoosh" sound. The flush can be slightly louder than gravity flush toilets.

For a listing of qualifying toilets, visit the City of Rohnert Park's website: www.rpcity.org or call the Utility Department at (707) 585-6750.

City of Rohnert Park

Water Efficiency Rebate Program

Application Form

How to Participate

1. Read and understand the Program Eligibility and Rules.
2. Determine if your home is connected to the City of Rohnert Park water service. If you are unsure, please contact the Utility Department at 585-6750.
3. Purchase and install your qualifying high-efficiency toilets (HET) and/or high-efficiency washer (HEW). **Be sure that the model numbers match exactly** with those on the qualifying list. HEWs with silver ion technology are not eligible.
4. Complete and sign the application form below and mail along with original purchase receipts to:
City of Rohnert Park
Water Conservation Program
130 Avram Ave
Rohnert Park, CA 94928
5. Please allow 6 to 8 weeks to process your rebate requests. Checks will be mailed to the address provided below.

*Rebate amount cannot exceed the cost of the HET or HEW excluding sales tax, delivery, installation or other fees, costs or accessories.

Program Eligibility and Rules

1. Rebates are available through December 31, 2016 while funding lasts.
2. Your home is within the City of Rohnert Park service area and connected to the water system.
3. Your new toilets and/or clothes washer have been installed and your rebate application is received or postmarked within 90 days of purchase or delivery. All purchases must be made by December 31, 2016 to be eligible.
4. Incomplete applications and those without purchase receipts will be returned.
5. For High-Efficiency Toilets:
 - Your home must have been built before 1992.
 - The toilets you are replacing are designed to flush with more than 1.6 gallons per flush (generally, toilets manufactured before 1992).
 - Your new toilets are the on qualifying list.
 - Your old toilets were properly disposed of or recycled.
6. For High-Efficiency Clothes Washers
 - Your new clothes washer is a Tier 3" model as listed on the *CEE Clothes Washer Product List*.
 - Your old clothes washer was properly disposed of or recycled.
