

Request for Development Fees

The amount of development fees and building permit fees is based upon several criteria. In order to provide an accurate estimate of fees, it is important that we be provided with accurate information. The fees that will be quoted to you are an estimate only. The final cost for fees will be determined once all plans have been approved for a building permit. Typical turn-around time can take up to 10 business days, and in certain cases depending on complexity up to 15 business days.

Please provide the following information:

Name, mailing address, e-mail address and phone number of person who is requesting this information.

Parcel address and Assessor's Parcel Number

Project description. Residential or Commercial? Number of units?

Building sq. footages (break building square footages down by conditioned space, storage/warehouse, garage, etc.)

Area of parcel (in acres). The area is measured to the center of the adjacent street(s) with the exception of major arterials. (Check with the Building Department first.) _____ acres.

Construction valuation of structure(s). List valuations for more than one structure separately.

List total numbers and types of plumbing fixtures. List water closets, floor drains, floor sinks, kitchen sinks, etc. Is this a restaurant? Fast food? 24 Hour? Is there a car wash? If so, what percent of water is recycled? Laundromat?
